G. RAM BOOKS (P.) LTD.
...encouraging a Love for Learning

From the Managing Director's Desk

Dear Principals and Teachers,
Warm wishes to you all from G.Ram Books.

We are a publishing house that is committed to the noble objective of spreading quality education. We believe in the power of innovation and dissemination of knowledge.

Nowadays, education is the backbone of every society. Education should not be about learning by rote and then repeating it robotically at the time of examination. Education should act as the window of knowledge that should inspire and encourage the students to innovate, participate and think independently.

In the field of education, quality books are very important. Here, at G.Ram Books, our two prime concerns are quality and authenticity. For our books, there is no compromise on the quality of content, design and activities. At the same time, we also keep a close watch on the fast changing educational scenario. We keep in focus the emerging requirements in the field of education and complete care is taken to follow the latest guidelines issued by the central and state level educational boards.

Our books create an exciting learning environment for the students who are both curious and innovative. As partners in imparting the best education for the students, we take special care to design the books in such a way that the students develop various skills, learn correct social attitudes, good habits and become responsible citizens of the country. In this way, we progress in our journey to provide the most dependable, innovative, need-based and stimulating education material for schools.

G. Ram Books is continuing to grow from strength to strength with each passing year, adding many feathers to its cap. We have enjoyed competitive success and continued growth and have expanded our list of books to meet the detailed and demanding requirements of our patrons. Our rendezvous with new and emerging titles has seen a growing confidence this year and we hope to take it forward in all its vivacity in the years to come.

Best Wishes

(Sunil Kumar)

My Search

Computer learning has become an essential part of School Curriculum in the golden age of Information Technology. The ever-changing field of technology has transformed human lives completely. Thus, it is necessary for us to impart the knowledge of computers from an early stage and motivate students to become advanced in the field of computer.

'My Search' is a graded series of computer books for classes 1 to 8 that captures all the new developments in the field of computers. This series follows an active learning approach to make the learners feel excited and comfortable while learning the subject along with NEP 21st Century Skills. This series is based on **National Education Policy (NEP) 2020** and fulfils the learning objectives in accordance with **National Curriculum Framework for School Education (NCF-SE) 2023**.

This series is based on Windows 10 and Microsoft Office Suite 2019 with some other software packages such as Paint, Paint 3D, Scratch, Tux Paint, App Development, Python IDLE, HTML, Krita, Data Science and Robotics, etc.

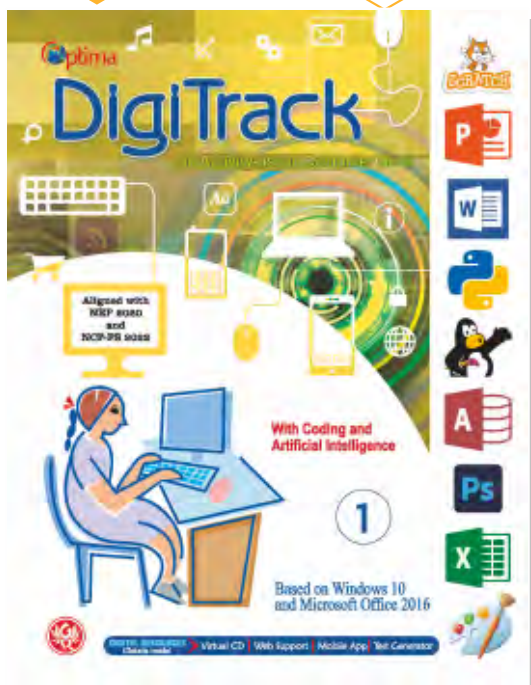

The main features of this series are:

- Classes 1 and 2 contain introduction to computers and their applications in various areas. These editions also cover the parts of a computer, their functions, and applications such as Tux Paint, Paint, Paint 3D, Word, Scratch Jr along with AI.
- Classes 3 and 4 cover basic working of Windows 10, Word 2019, PowerPoint 2019, Paint 3D, Internet, glimpse of Windows 11, and Google Docs along with the programming language Scratch and some advanced features of Tux Paint and Paint. These editions also provide a glimpse into the AI world through the application such as Petalica Paint and Autodraw.
- Classes 5 to 8 provide advanced topics such as Word 2019, PowerPoint 2019, Excel 2019, Google Slides, Google Sheets, Gmail, Google Meet, Google Drive, Cyber Safety, and Computer Malware. This edition helps to learn web designing through HTML and CSS and editing the images using Krita. Special focus is given to Scratch and Python programming languages to enhance coding skills along with AI applications such as LUIS, Quickdraw, Semantris and AI for Oceans.
- Chapters on Artificial Intelligence and Coding are included in classes 1-8, to impart basic understanding of the concept to the students.
- Any suggestions for improvement of the book shall be gratefully acknowledged and incorporated in the subsequent editions.

Production Infrastructure

At G.Ram Books, we aim at bringing out systematically graded books that are strictly based on the prescribed syllabus, guidelines and curriculum.

We are aided by cutting-edge technological innovations that are required to bring about quality books. We have a well-qualified team of experts as well as dedicated staff to assist in every step of the book production process.

The books are designed in-house by proficient designers in our own designing department. The content, series level, grading and all other aspects of the books are thoroughly checked and maintained by our team of qualified and experienced authors and editors who impart their special touch to the books to make them unique and exclusive.

To facilitate the process of publishing and to bring out good quality books with sparkling colours and lively illustration, we have our own printing press where quality control is the norm.

We have a huge network of sales with more than a hundred in-house sales personnel working round the clock to meet the demands placed by our distributors set up on all-India basis.

We are pleased to provide an exceptional online platform to our schools through our website and be open to their suggestions all the time. You can depend on us to provide you with the quality books like never before.
